Houck Returns To Whoop Things Up In Chamber Drive

Membership Secretary R. M. Hards breparing a letter to be maded to the membership within a few days of the membership within a few days of the figure of campaing the second of the members obtained through the individual efforts of present members who are not members of the Blue or Red teams

will be apportfored equally between the two armies.

The executive committee is particularly anxious that present members of the chamber wear the white mailed out this week. These buttons are to be worn throughout the period of the campaign and will serve a nonlex purpose. They will be the flag of pateriotism of members and will tend to keep present members from being approached by team workers, led or blue buttons will be wern by new members, according to which team obtains the application.

Letters from members of the henorary advisory committee, pledging support to the campains and setting forth salient reasons for membership are being received daily. In Cornatizar, passenger traffic manager for the Prisco railroad with headquarters in St. Louis, has written that he intendate make a special effort to come to Memphis during the campains and sign up a few members personally. Mr. Cornatizar, a past president of the chamber, has ever maintained his loyality as a Memphian.

TIPTON DEMOCRATS PICK CANDIDATES

COVINGTON, Tenn., May 18 (Spl.)
—In the Democratic primary held in Thoton county Saturday, J. A. Peeler was again chosen as the nominee for trustee, without opposition. T. Mack Harris was nominated over his opponent by a majority of about 100 votes for the office of tax assessor and C. N. Vois, encumbent, was chosen over D. B. Rice by a margin of about 100 votes for office of sheriff. Very little interest was manifested in the primary. Only about 1,500 votes were polled in the entire county, the usual vote being around 3,000.

ALABAMA MAN HELD ON WHITE SLAVERY CHARGE

HUNTSVILLE. Ala., May 18. (Spl.)

David Cunningham, of Merrimack, has been committed to jail here to await the action of the next federal grand jury which will investigate charges of white slavery that have been brought against him by the mother of a 14-year-old girl of Tullahoma, Tenn. She claims that Cunningham brought her daughter to Huntsville from Tullahoma in violation of the federal white slavery act and she also charges that he brought another woman here from Tullahoma at the same time. The woman feelared in the hearing before Commissioner Watts that she paid her own fare. Cunningham's bond was fixed at \$3,000 but he was unable to make it and is in jail. He is a widower with five children

PICK NEW MANAGER FOR J., L. C. & E. ROAD

GARRETT & COMPANY, Inc. Only American Producers of Genuine Beverage Wine 10 Bush Terminal Brooklyn, New York

If he should step off—

Yet the total impact of your 8,000 steps a day is greater

TF he should step off the top change the pavements, but ▲ of this 16-story building, he would hit the pavement below with an impact of 600 tons.

Yet the impact would not be as great as the total impact of the 8,000 steps you take on the average every day.

This startling comparison reweals one of the greatest sources of fatigue in modern life. Only a few years ago we walked on soft dirt paths and elastic turf which cushioned every step. For such walking Nature provided the bony arch of the foot and the pad of flesh at the heel to absorb the lighter shocks.

But conditions have changed, Hard, unyielding pavements, sidewalks and floors have replaced the natural ground in all our cities and towns. Now every step with leather heels or ordinary "dead" rubber heels upon these modern pavements acts as a hammer blow to your nervous system. The repeated shocks of your 8,000 steps a day take their toll of nervous energycontribute largely to that feeling of over-fatigue you so often experience.

Yet you can eliminate this source of fatigue. You cannot

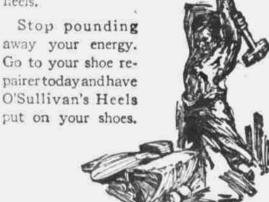

you can change your heels. O'Sullivan's Heels absorb the jolts and jars of walking on hard pavements.

To secure the resiliency, the springiness of O'Sullivan's Heels, the highest grades of rubber are blended by a special formula. With this blend of live; springy rubber are "compounded" the best toughening agents known. The "compound" is then "cured" or baked under high pressure.

This is why O'Sullivan's Heels absorb the jolts and jars of walking. The same process that makes O'Sullivan's Heels resilient gives them their great durability. O'Sullivan's Heels will outlast three pairs of leather heels-they often outlast two pairs of

THIS WEEK ONLY

At the Stores Named Below A 10-Day Tube of Pepsodent

A Way to Dainty Teeth

To Safer, Whiter, Filmless Teeth

All Statements Approved by High Dental Authorities

Film on Teeth Is What Wrecks Them

Dental science has found that most tooth troubles are due to a slimy film. You can feel it with your tongue.

That film clings to the teeth. It gets between the teeth, enters crevices and stays. The tooth brush doesn't end it. The ordinary dentifrice cannot dissolve it. So its damage is unceasing.

That film is what discolors - not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

That is why brushed teeth discolor and decay. Why tartar forms and pyorrhea starts. You may remove the debris, but the real cause of tooth troubles-the clinging film-is largely left to do its damage.

Now dental science has found a way to combat that film, after years of searching. We ask you to accept a ten-day test and see the results for yourself.

See How Teeth Glisten When the Film is Gone

The results of Pepsodent show clearly in white, glistening teeth. You can see them everywhere, for a million folks now employ it. You can see them on your own teeth when you remove the film. And that's the purpose of this ten-day test.

Based on Pepsin

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The purpose of Pepsodent is to dissolve it, then to constantly combat it.

But pepsin must be activated, and the usual agent is an acid harmful to the teeth. So pepsin long seemed impossible.

What science has now done is to invent a harmless activating method. That method is employed in Pepsodent. The result is a tooth 1 iste which will do what nothing else has done. And five years of tests seem to clearly prove that it opens a new dental era.

Pepsodent has been submitted to every form of clinical and laboratory test. Dentists everywhere have watched its effects and now urge its daily use. This week we offer a test to you, and we ask you to accept it.

Look in Ten Days

We urge this test for your sake and your children's sake. Children have most to gain from cleaner, safer teeth. Try to avoid the troubles we have had.

Present this coupon for a 10-Day Tube. Use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how teeth whiten as the fixed film disappears.

A book comes with the sample tube, explaining the results. Learn the reason for them. Compare them with the results of old methods. Then let your own good sense decide what method to employ.

This test is of lifetime importance, both to you and yours. It has shown at least a million people the way to whiter, safer teeth. Someone in your home should make it. Cut out the coupon so you won't

The New-Day Dentifrice

A scientific film combatant which is now advised for daily use by leading dentists everywhere, after years of tests
